### Election

Applicants elect Group II, claims 38, 40, 42, 51, 54, 61, 64 and 67, drawn to a device for delivering a volatile substance comprising an active layer. Applicants have added new claims 82-112 based on the original claims in Group I, drawn to methods of making the active layer of a device to deliver a volatile substance. New claims 82-112 depend from elected claim 38. Therefore, Applicants respectfully submit that claims 82-112 fall within the scope of the invention of elected Group II, and so request examination of elected claims 38, 40, 42, 51, 54, 61, 64, 67, and new claims 82-112 on the merits.
